### Why is Early Learning Important?

A child's early years lay the foundation for all that is to come. Early education can play a critical role during this important developmental period. NMPre-K provides developmentally appropriate activities for New Mexico children. It supports school readiness through addressing the needs of every child in all developmental learning areas: Listening, language, writing, science, counting, shapes, sorting, measuring, coordination, hygiene, health, well-being, art, music, movement, independence, problem solving, thinking, perseverance, appropriate behavior, social skills, and being part of a group.

### What will be taking place on this day:

Registration for 3 year old and 4 year old programs for the 2021-2022 school year. Children registering for Pre-K will need to be 4 years old by 11:59 pm August 31st to qualify for school.
